- * Passion & Excellence
- * World Class Service Delivery
- * Respect & Commitment
- * Integrity
- * People Oriented

OUR PROMISE

- * A Professional Attitude
- * A Professional Service beginning with our initial consultation and quotation
- * High Quality Materials
- * High Quality of Workmanship
- * Commitment to pro-active service delivery

COMFORT THROUGH MODERNIZATION

There have been many innovations in plumbing design ideas over the last decade, encompassing the development of wet rooms, steam showers and whirlpool baths amongst an array of different style concepts. Indeed, designing or remodeling a bathroom suite is one of the most important considerations when refurbishing a home. It needs to be modern with the appearance of spaciousness and comfort, without losing its purpose or core functionality, and offer a relaxing and appealing haven for occupants and visitors alike.

Benefits of going solar :

- * Saving and conserving the environment
- * immediate reduction in monthly electricity bill 40-50%
- * Immediate reduction in future price hikes
- * Protection against penalties that are going to be imposed in future
- * Being compliant with legislation in the process of being legislated
- * The less energy you consume, the less your energy tariff
- * Green Power Eskom rebates range from R4667 – R5925 (as of May 2011)
